Bengaluru, Karnataka | +91 9384256530 | ajayvarman@zohomail.in

LinkedIn: linkedin.com/in/ajayvarman-m | GitHub: github.com/ajayvarmanm | Portfolio: ajayvarmanm.github.io/Portfolio/

PROFESSIONAL SUMMARY

Digital Marketing and SEO professional with hands-on experience supporting website growth, technical and on-page SEO, keyword research, local SEO, and social media content across multiple business websites. Comfortable reviewing website health, identifying crawl and indexing issues, working with Google Search Console, and coordinating website improvements. Also brings a web development foundation in HTML, CSS, JavaScript, Python, and Django, enabling closer collaboration with development teams on technical SEO fixes.

CORE SKILLS

SEO	Technical SEO audits • On-page SEO • Keyword research • Local SEO • Location-page optimisation • Internal linking
Technical SEO	Google Search Console • Sitemap & robots.txt checks • Canonical review • Indexing checks • Meta tags • Heading structure • Image alt text
Digital Marketing	Social media content planning • Caption writing • Basic Google Ads • Basic Meta Ads • SEO reporting
Web	HTML • CSS • Bootstrap • JavaScript • Python • Django • MySQL • Git & GitHub

PROFESSIONAL EXPERIENCE

SEO & Digital Marketing Executive | Pragathi

Jul 2026 – Present

- Support SEO and digital marketing activities across four business websites, including service, education, HR, and renewable-energy domains.
- Conduct keyword research and support SEO targeting across Indian and international locations through location-focused landing pages.
- Review technical and on-page elements such as title tags, meta descriptions, H1/H2 structure, internal links, image alt text, sitemap, robots.txt, canonical tags, and indexing signals.
- Use Google Search Console to review search performance, impressions, clicks, and query visibility; identify pages and keywords requiring improvement.
- Coordinate website corrections and content updates with developers, including crawlability, URL structure, and indexing-related tasks.
- Prepare social media captions and content for Instagram, Facebook, LinkedIn, X, and YouTube across multiple business pages.

Web Development Trainee | Besant Technologies

4 months

Built foundational skills in Python full-stack development, including HTML, CSS, Bootstrap, JavaScript, Python, Django, and MySQL. This technical background supports collaboration on website structure, performance, and SEO implementation.

EDUCATION

B.E. – Computer Science and Engineering | PSN Institute of Technology and Science

2022 – 2026 | Academic requirements completed; official results/degree pending.
